

Redeem Coupons at Fluorescent Bulb Recycling Retailers

It's Good for the Environment and it's the law.

Replacing your standard incandescent light bulbs with fluorescent lamps can save up to 75% in energy and last up to 10 times longer.

When they do burn out, fluorescent lamps will have to be recycled since they contain a small amount of mercury which is harmful to the environment. They must be taken to an authorized bulb recycling center, rather than thrown into the garbage. In fact, since 1994 it has been illegal in Minnesota to do so.

To make the recycling process easier, Crow Wing Power members can use up to ten, 50¢ coupons to redeem at **participating retail drop off locations (as listed on the back)**. **County Waste Sites Do Not Accept Coupons.** Use one coupon per lamp and your participating retailer will apply this as a discount to your total recycling costs.

If you want additional information on fluorescent lamp recycling, please call Crow Wing Power at (800)-648-9401 (local 218-829-2827) or check out our web-site: cwpower.com.
